

## WE-EF Colours

Fine textured black RAL 9004, grey aluminium RAL 9007 and white RAL 9016 are the standard colours for all luminaires listed in this catalogue. In addition, WE-EF luminaires may be custom ordered to match any of the wide variety of available RAL and DB colours according to the sample chart.

### 5CE Superior Corrosion Protection

Outstanding and long lasting anti-corrosion properties can only be achieved by a comprehensive, integrated approach. The result of many years of research and development, hands-on testing and experience, WE-EF's 5CE system encompasses 5 Critical Elements:

Substrate

Conversion Coating

Powder

PCS Hardware

Process Control

All materials and production steps are part of a tightly controlled process under ISO 9001 quality assurance.

The 5CE technology includes PCS Polymer Coated Stainless hardware. Unique to WE-EF, the PCS hardware is used for all critical connections to prevent harmful galvanic corrosion.

The end result is a quality product of excellent corrosion resistance, that can be serviced after years of operation, and features a powdercoat finish of outstanding adhesion and colour stability.
